

Welcome from the Principal and students

Oakleigh Grammar embraces students from many different countries and cultures by cultivating a unique, internationally minded learning community. In fact, parents often remark that the young people at our School are more like members of an extended family such is the individual care and attention they receive.

Our students have a range of VCE subjects to choose from, allowing them to focus on and thrive in their area of interest. Highly capable students may start VCE at Year 10, allowing them to accelerate their studies and boost their final ATAR score.

In addition to the range of VCE subjects, Oakleigh Grammar also offers a range of co-curricular opportunities, which broaden their friendship groups, social skills and global outlooks.

Oakleigh Grammar boasts state-of-the-art 21st century learning facilities. The newly renovated Science Wing provides the latest equipment and learning technology for our students to excel in science studies. Students develop the appropriate use of technology as a learning resource through initiatives such as iPad programs and multimedia projects.

At Oakleigh Grammar, we value each and every student. We offer a genuine commitment to ensure your child will be engaged through a range of contemporary learning programs. There is truly something for everyone and every effort is made to encourage student participation in activities and programs that are both authentic and meaningful.

We believe that supporting internationalism at our school is not only a true representation of Melbourne's multiculturalism but a critical mindset for our young people to absorb as they move into a rapidly changing internationally-minded society.

VISION

To be a leading co-educational school that delivers quality education at international standards.

Providing a truly welcoming environment with opportunities for all students to achieve their personal best.

Founded in 1983, Oakleigh Grammar is a co-educational school with a focus on developing successful, global-minded students. With a small number of Chinese students, children are fully immersed in an English-speaking environment that maximises opportunities to practise speaking the language.

The International Baccalaureate Middle Years Program gives students the opportunity to prepare for the Victorian Certificate of Education (VCE) in a wholesome, well rounded manner that supports highly successful outcomes.

Senior School Students are given the opportunity to undertake extension studies and capable students in Year 10 may choose to include VCE units in their study programs, allowing them to shape their final scores from an earlier stage in their education.

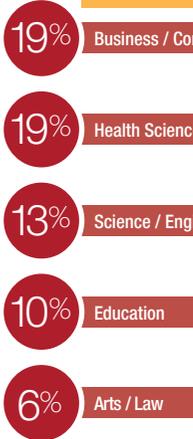

On our doorstep are some of Australia's most highly regarded universities.

Our specialist Careers Department helps students in shaping their final years of secondary study, focusing on the necessary steps for individual success.

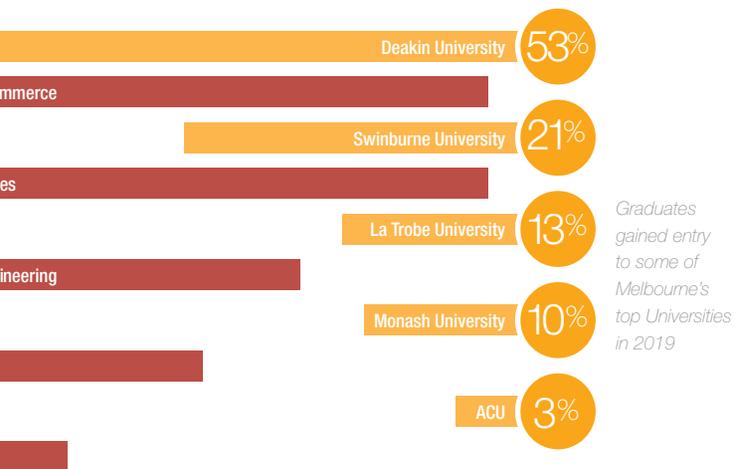

The Monash Young Scholars Program assists students to develop early ties with Monash University.

All of our 2018 graduates were successful in gaining an offer to study at a tertiary institution in 2019.

values

Our ethos is inspired by, diversity and inclusivity, excellence and effort, responsible citizenship, innovation and a zest for life.

Recognising the link between positive teacher/student relationships and VCE success, our dedicated staff work to ensure that students are given the individualised learning and pastoral support they require.

mission

To create quality learning opportunities for every student to reach their full potential

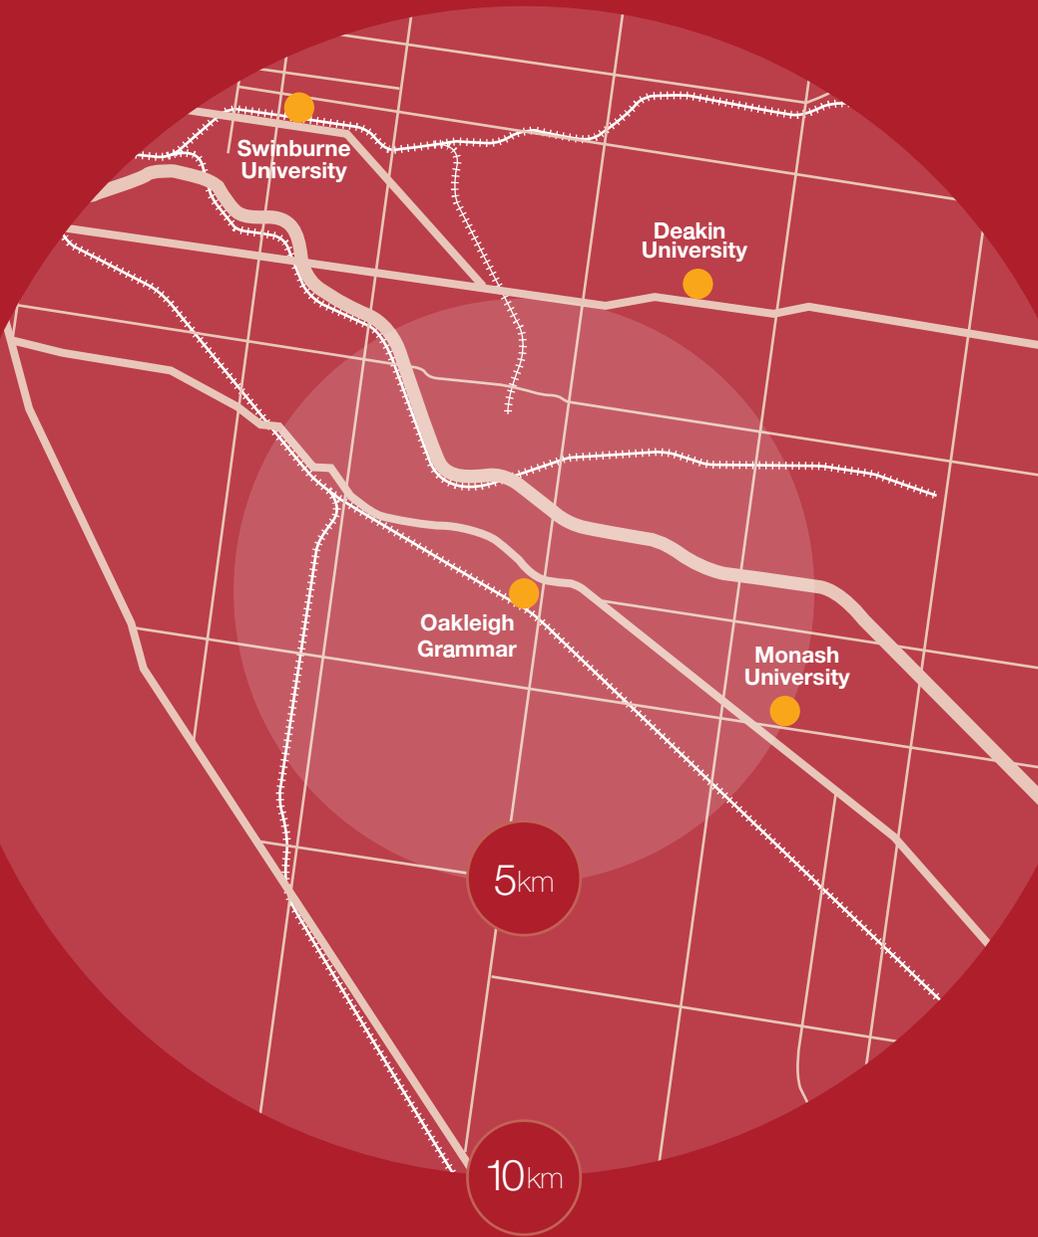

Empowering Young Minds
